Comm. Amdt. _____

by deleting subsection (d) in Section 1 and substituting:

(d) If the result of a lead level test conducted under subsection (c) is equal to or exceeds fifteen parts per billion (15 ppb), then the public school, public charter school, or child care program shall:

(1) Immediately remove the drinking water source from service. The drinking water source must remain unavailable for use until retesting under subdivision (d)(4) or (d)(5) confirms that the lead level of water from the source is less than fifteen parts per billion (15 ppb);

(2) Notify:

(A) The commissioner of environment and conservation, the commissioner of health, the local department of health, the local governing body, if any, and the commissioner of education within twenty-four (24) hours of the test result, and must include in the notification a confirmation that the drinking water source has been removed from service; and

(B) The parents or guardians of children enrolled at the public school, public charter school, or child care program, in accordance with a notification policy developed by the local board of education, public charter school, or child care program, within twenty-four (24) hours of the test result. A notification from a public school or public charter school must include all languages indicated in an LEA's home language survey

conducted in accordance with Title VI of the Civil Rights Act of 1964 (42 U.S.C. § 2000d et seq.);

(3) Develop a corrective action plan within five (5) days of notification of lead level test results, and post the corrective action plan to the public school's, public charter school's, or child care program's website;

(4) Retest the lead level of the drinking water source within thirty (30) days of corrective action; and

(5) Conduct lead level tests on an annual basis until retesting confirms that the lead level is less than fifteen parts per billion (15 ppb).
